2008 Southern Neurosurgical Society Annual Meeting

Trade Winds in the Caribbean & the Winds of Change in Neurosurgery

Preliminary Program

February 6-9, 2008
El Conquistador Golf Resort & Casino
Las Croabas, Puerto Rico
Dear Colleagues:

Marian and I would like to invite you and your families to the 59th Annual Meeting of the Southern Neurosurgical Society, taking place February 6-9, 2008 at El Conquistador Golf Resort and Casino in Las Croabas, Puerto Rico. This year’s focus, *Trade Winds in the Caribbean and the Winds of Change in Neurosurgery,* will address the wide range of issues and challenges facing the neurosurgical profession today.

Dr. Fernando Vale and the Scientific Program Committee developed a great program that focuses on the rapidly evolving practice of neurosurgery from a technological, scientific and socio-economic aspect. This year, with a continued focus on residents, we have arranged a special Resident Luncheon Seminar, *Preparing for a Neurosurgical Practice.* We are honored to have Dr. Jon Robertson, Professor and Chairman of the University of Tennessee Health Sciences as our R. Eustace Semmes Lecturer and Dr. Roberto Heros, Professor, Co-Chair and Program Director at the University of Miami as the distinguished William Henry Hudson Lecturer. With the leadership of Dr. Anil Narula, we are proud to announce Richard Ford, Pulitzer Prize winner and the PEN/Faulkner Award winner, as our second annual Edward Downing Lecturer.

Dr. Ricardo Brau, our local host, has put together a spectacular social program. One of the highlights is an optional pre-meet tour on Wednesday, February 6, that will take you to historic Old San Juan for a tour of the Bacardi Rum Factory or for a day of shopping in San Juan. This event will take place one day prior to the start of the Scientific Program and should be a great event for all to attend with their families. On Thursday evening after the Welcome Reception, kayak at Las Caobazas de San Juan, where you can touch the waters that glow with the single-celled flagellates – only found in Puerto Rico. You can also choose to join in on El Túnel Rainforest Excursion, Horseback Riding in the Rainforest and the Surf & Turf Biking Adventure.

The meeting will be family-friendly as El Conquistador Resort has an array of activities for children, among which is a Sea Side Water Park located inside the property that the resort is currently in the process of completing. At the Final Banquet on Saturday evening, we plan to host a special event for those children who are too young to attend the banquet.

This is a meeting that you won’t want to miss; we look forward to seeing you all in Puerto Rico!

Sincerely,

John A. Wilson, MD, FACS
President, Southern Neurosurgical Society

Old City Historical Walking Tour with Shopping
or Bacardi Tour – $67 per person

This full day tour is designed for those who are culture and history enthusiasts. Knowledgeable guides will take you to Old San Juan—the oldest city in the U.S. There, you'll be able to stroll through Old Spanish cathedrals and forts such as San Cristobal, where you'll see and learn how the Spanish built and defended their city. Afterwards, you'll have an opportunity to do some shopping or take a tour of the Casa Bacardi. At the Casa Bacardi you'll be guided through seven exquisitely designed and historically accurate rooms created to engage you as you experience the sight, smell and taste of Bacardi rum. Learn the secrets of Bacardi rum making, including the secret strain of yeast isolated in 1862 and still used today. Take advantage of this tour with your spouse before the scientific program begins!
